

Give your attendees all the information they want without all the waste!

**CDshowGuides reduces excessive waste
associated with tradeshow literature and conference handouts.**

The CDshowGuide™ collects and consolidates all of your exhibitors' brochures before the show onto a single, easy to use, searchable CD. We then supply you with enough copies to hand out to all the buyers at your show, eliminating, or at least reducing, the need for exhibitors to ship and hand out boxes of literature that frequently gets thrown away or left behind.

Besides adding value for both [Exhibitor & Attendee](#) it's also another great way for you to increase show revenues through sponsor & advertising sales on the CD and its packaging.

CDshowGuide™ can help you distribute substantive information in person, in an interesting format, with a very low cost. Some examples are: FAQs - Conference Proceedings - Digital Directory.

The CDshowGuide™ browser can also be linked seamlessly from your website for an even "greener" alternative.
